

# 2019 Supernova - Benson Kites

Die absolute Überraschung, der meiner Meinung nach der beste Drachen aller Zeiten. Er kann einfach alles, was ich von ihm erwarte und mit einer Knötchenleiter fliegt er zuverlässig, trickreich und präzise über einen sehr großen Windbereich. Ich bevorzuge 25m, 30daN- Leinen, beim Sonneruntergang auch 35m-Leinen.

The screenshot shows the Benson Kites website interface. At the top is the Benson logo (a blue 'b') and a navigation menu with links for HOME, KITES, TECH, MEDIA, SHOP, LATEST, and CONTACT. Below the navigation is a sub-menu for kite series: SUPERNOVA SERIES (highlighted), SUPERFLY SERIES, DEEP SPACE SERIES, GEMINI SERIES, and OLD SCHOOL FAVOURITES. The main content area is titled 'SUPERNOVA' and has two tabs: STANDARD and ULTRALIGHT. A large image shows a green and black Supernova kite. To the right of the image is a table of specifications and a 'FEATURES' section. Below the table is a recommendation for a 5PT lower spreader option. At the bottom of the product page are four small thumbnail images of the kite from different angles and a 'VIDEO' link. The footer contains the copyright notice '© 2020 Benson Kites. All Rights Reserved' and the Benson logo.

► FEATURES	
► COLOURS	
► SPECS	
<b>Style:</b>	Competition/ Freestyle
<b>Frame:</b>	Sky Shark Nitro/ P3X/ 7PT
